Description

ANTARI Professional Hazer

Features

With the HZ-500 Antari is proud to unveil the most up-to-date Hazer to the entertainment industry. This groundbreaking masterpiece, created by the Antari R&D team, is the result of an enormous experience in designing haze machines and years of hard work. Therefore, the performance of HZ-500 is second to none and better than any other hazers on stage. The haze is perfect for use with laser beams, (LED)lighting and brings the best atmospheric effects to all events. HZ-500 is definitely the best choice for those stage designers, performers, and venues where silence is extremely important. Last but not the least, the extraordinary low haze liquid consumption makes HZ-500 more energy-efficient and more environmental-friendly

Main Features:

- SUPER LOW NOISE, below 70dB at 10cm distance: Ideal for all venues where silence is extremely important!
- Dry haze: the HZ-500 produces very dry haze, which does not generate redundant moisture.
- Extremely small particulates: HZ-500 makes incredibly tiny particulates. Thus, the haze can be distributed through air further and faster. In addition the haze last much longer.
- A metal net and filter prevent clogging problems. The metal net and filter are serviceable (easily detacheable and cleaned by water)
- Super low haze liquid consumption: only 1liter liquid needed for 20 hours working time!
- A compact flight case is included making the unit tougher, durable and easy to carry.
- On-Board DMX for full control at any time and place.

Technical Specifications

General : Series	No
General : Dimensions (cm)	49 x 35.1 x 33.8 cm
General : Weight (kg)	31.5
General : Powerinput	AC 100 - 240V, 50/60Hz
General : Energy Label	No
General : Color	black
General : Display	No
General : IP rating	indoor
Control : Modes	standalone fixed, standalone timer, manual, DMX
Control : manual	Yes
Control : Standalone	timer, fixed
Control : maximum DMX channels	1
Fx : liquid consumption	1,1 mil/min (909 min/liter)
Fx : liquid type	Haze
Fx : output cu.ft. / min.	3000 cuft/min (85 m³/min)
Fx : tank capacity in L	2.5
Connections : input	5 pin XLR, IEC
Connections : output	5 pin XLR
Brand	ANTARI
EANCode	4719850651206
