

Dante Ceiling Speaker ZW-6D**Descriptions:**

The Dante Ceiling Speaker ZW-6D is with built-in amplifier and Two Way Coaxial speaker with a 6.5" woofer & a tweeter 1.5" to deliver clear sound. It connects to a Dante network using a single RJ45 cable for both power (PoE) and digital audio connectivity. Software-based is available to control various functions and settings including gain, mute, a 5-band EQ, and a limiter. It is ideal for conference rooms, retail spaces, public locations, schools and residences.

Features:

1. Frameless magnetic front grille design for seamless installation with ceilings.
2. Using one single RJ45 cable for both PoE power supply and digital audio connectivity.
3. Automatic IP address allocation via router DHCP.
4. Independent control of each receiving channel enables deployment anywhere within the local area network.
5. Integrated DSP network for setting including gain, mute, a 5-band parametric EQ, and a limiter.
6. Features high-efficiency sound energy output, exceptional audio quality, comprehensive protection functions, and excellent electromagnetic compatibility.
7. Complete protections provided for short circuit, overload, over/under voltage, DC, power voltage limitation, temperature voltage limitation, long-term output power limitation, clipping limiter ect.

Specifications:

Item Name	Dante Ceiling Speaker
Model	ZW-6D
Continuous Power	60W
Impedance	8 Ω
Speaker Unit	1*6.5" woofer & 1*1.5" tweeter
Input Port	RJ45 port
Frequency Response	80Hz-20KHz(±3dB)
Sensitivity	90dB
Max SPL	105dB
Cutting hole	215 mm
Dimension	Φ265×190 mm
Power Supply	PoE(IEEE802.3af)
